INGREDIENT STATEMENT:

This animal feed contains: Grain and grain by-products, animal protein products, plant protein products, roughages and agro-industrial by-products, sugar cane by-products, oils and fats, amino acids, vitamins and minerals, antioxidants, binders, acidity regulators, flavouring agents, aroma enhancing agents, compounds of trace elements, digestibility enhancers and gut flora stabilizers. This product contains genetically modified ingredients.

NOTE:

This farm feed is available with or without registered stock remedies. See bag tag for details and feed strictly according to given instructions below.

FEEDING RECOMMENDATIONS:

Feed to weaned dairy replacement heifers with free access to good quality roughage or pasture. From weaning to the age of 6 months, feed at a rate of 2 kg/calf/day, or adjust the quantity fed up or down to achieve specified growth targets. From 6 months to breeding, the quantity fed can be increased to 4 kg/heifer/day, or adjust the quantity fed up or down to achieve specified weight and skeletal growth targets. Mega Calf 16 may also be fed ad lib as a creep feed to suckling beef calves. Consult an animal nutritionist for more detailed/customised advice.

For more detailed feeding recommendations contact an Epol Technical Advisor.
