NUTRIENT	MIN/MAX	SPECIFICATION	UNIT
Protein	Min	150	g/kg
Moisture	Max	120	g/kg
Fibre	Max	120	g/kg
Fat	Min/Max	25/70	g/kg
Calcium	Min/Max	10/12	g/kg
Phosphorus	Min	5	g/kg

INGREDIENT STATEMENT:

This animal feed contains: Grain and grain by-products, animal protein products, plant protein products, roughages and agro-industrial by-products, sugar cane by-products, oils and fats, amino acids, vitamins and minerals, antioxidants, binders, acidity regulators, flavouring agents, aroma enhancing agents, compounds of trace elements, digestibility enhancers and gut flora stabilizers. This product contains genetically modified ingredients.

NOTE:

This farm feed is available with or without registered stock remedies. See bag tag for details and feed strictly according to given instructions below.

FEEDING RECOMMENDATIONS:

Feed to dairy replacement heifers from 5-6 months of age to breeding at a rate of 3-4 kg/heifer/day, along with restricted access to maize silage or free access to other roughage, veld grazing or pasture. The quantity of compound feed can be adjusted up or down to achieve specified weight and skeletal growth targets. Consult an animal nutrition advisor for customised advice.

For more detailed feeding recommendations contact an Epol Technical Advisor.
